

Lab Session 2

(your name)

September 2018

1 Introduction

There is a theory which states that if ever anyone discovers exactly what the Universe is for and why it is here, it will instantly disappear and be replaced by something even more bizarre and inexplicable. There is another theory which states that this has already happened.

Figure 1: The Universe

2 Lab Session 2

In table 1 we show the results of our first experiment.

Results	Correct	Wrong
Exp. 1	10	10
Exp. 2	12	8

Table 1: This table shows the results of our first experiment.

Equation 1 shows a function. In figure 2 we show a curve of this function. This equation is not mentioned in [2].

Figure 2: The curve of the function

$$f(x) = x^2 + 3x + 1 \tag{1}$$

3 Conclusion

“I always thought something was fundamentally wrong with the universe” [1]
